1 lesson = 60 minutes

Group course

Lessons take place in small groups of a maximum of 6 students per teacher. The low number of students provides high level of individual attention within a small, dynamic learning unit. The teacher is able to address fully the linguistic needs and objectives of each participant.

News review

News from the Spanish speaking world. A 30 minutes session every morning in which selected students present to the rest of the group an analysis of the previous day's news for a brief group discussion. This serves as a warm-up exercise and is held at the very beginning of every day.

Self-study centre with tutor

The tutor, in charge of a maximum of a dozen students, sets learning projects which he/she monitors on a one-to-one basis for five to ten minutes at a time. The teacher thus acts as a catalyst for individual study.

Fluency Workshop

The Fluency Workshops usually take place in groups of 8 students of different levels (reflecting reality) and are designed to promote active expression in the language. They focus on a variety of aspects of the language and include, for example, role-plays, pronunciation, presentations, negotiations, lectures and debates.

Spanish online & Preparation for lesson

Our learning concept, Spanish language course with teacher + online self-study, will help you to feel at home with your new language much more quickly. More than 1,000 interactive exercises organised into 6 learning stages from beginner to advanced with the support and advice through your personal online tutor.
